## DETAILED ACTION

### Status of the Claims

 This action is in response to the applicant's filing on July 1, 2010. Claims 1-2, 4-10 and 12-34 are pending and examined below.

### Response to Arguments

- The corrections for specification regarding the prior art filed document has been received, and the objections for the specification and priority are withdrawn.
- The terminal disclaimer filed on July 1, 2010 has been approved, and the double patenting rejection over U. S. Patent 7,548,883 is withdrawn.
- 4. The provisional double patenting rejections over co-pending applications 10/456,000 and 10/464,601 are sustained, because if the obviousness-type double patenting rejection is the only rejection remaining in the later-filed application, while the earlier-filed application is rejectable on other grounds, a terminal disclaimer must be required in the later-filed application before the rejection can be withdrawn (see MPEP 804 I B 1).

# Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct

Application/Control Number: 10/626,683

Art Unit: 3694

from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Omum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

- 6. A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.
- Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).
- 8. Claims 1, 33, and 34 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 10, 20, and 21 of copending Application No. 10/456,000, and claims 1, 12, 17, and 21 of copending Application No. 10/464,601. Although the conflicting claims are not identical, they are not patentably distinct from each other because the only substantial difference between the claims is the industry to which the invention is applied.

Application/Control Number: 10/626,683

Art Unit: 3694

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### Allowable Subject Matter

 Claims 1-2, 4-10 and 12-34 would be allowable if files a valid terminal disclaimer, set forth in this Office action.

#### Conclusion

 THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action.
